

Dr Tobias Kotzé

South Africa

Tobias Kotzé is a medical physicist who obtained his PhD in Physics in 1986 at the University of Stellenbosch.

In 1986, he started his working career as a radiation scientist at the Directorate Radiation Control; and in 1999 he became the deputy Director of the Radionuclide section in Radiation Control.

In 2006 he joined the Medical Physics Department at Groote Schuur Hospital and was also closely involved with the radiation physics training of the radiology registrars and radiographers.

In 2016 he joined the Life Healthcare Group as a consultant medical physicist to implement a dose optimisation programme in interventional radiology.
