

SUNECHO
CRITICAL THINKING IN ECHOCARDIOGRAPHY

20 MAY 2024 | HANDS-ON 3D ECHO WORKSHOP | TYGERBERG HOSPITAL, CARDIOLOGY DEPARTMENT

21 –24 MAY 2024 | SUNECHO COURSE | PROTEA HOTEL TECHNO PARK, STELLENBOSCH

Dear Exhibitor,

We would like to welcome one and all to SUNECHO 2024, the 13th installment of our annual echocardiography course. The SUNECHO approach is based on understanding basic echocardiography principles, and then apply them in a process of critical thinking to solve even complex cases. This approach will ensure that all of you, including those with no experience in echocardiography as well as the experienced echocardiographers amongst you, will benefit from the course. For the lessexperienced delegates who aim to sit for the British Society of Echocardiography (BSE) accreditation examinations (now hosted locally) in the near future, SUNECHO is perfectly geared towards assisting in your preparation as it covers a comprehensive syllabus in echocardiography over the 4-days of the course. We start with the basic principles required to understand an echocardiographic area of interest before progressing to some of the complexities of applying these principles. Some of you will also participate in our hands-on 3D echocardiography workshop aimed at understanding the principles and practice of this modality for more experienced operators.

SUNECHO 2024, will again be hosted at the Protea Hotel, Stellenbosch, amongst the beautiful vineyards of our university town. The course will provide a good foundation for the development of your echocardiography skills and add novel information aimed at improving knowledge and skills of even the most experienced echocardiographers amongst you. We once again have an exceptional faculty who will be sharing their knowledge, experience and expertise in a course known for its characteristic Stellenbosch University hospitality.

The key to your success in this course is your active participation. Join the discussion, raise the questions you have, share your experience and perspectives, and enjoy the SUNECHO experience.

It will be appreciated if you can complete the form and return as soon as possible to Leandri Duvenhage on e-mail leandrid@consultus.co.za.

Exhibition stands will be allocated on a first come first serve basis and will only be confirmed upon receipt of exhibition fees.

Welcome to SUNECHO 2024!

Dr Philip Herbst
Consultant Cardiologist
Stellenbosch University and Tygerberg Hospital
