

Dr Bhavya Rehani

United States

Bhavya Rehani is the Co-founder, CEO and President of Health4theworld, which is striving for global health equity using technological innovation, education and humanitarian aid with outreach in over 122 countries.).

Dr Rehani completed her neuroradiology training and research at Massachusetts General Hospital, Harvard Medical School.

Acclaimed for her service to the global community, Dr Rehani was invited to the Radiological Society of North America (RSNA) Annual Oration in 2020 and awarded the 2020 UCSF Chancellor Award for Public Service. In 2019, she was awarded the Silicon Woman of Influence Award by the Silicon Valley Business Journal and named in "Rising Stars: 66 Leaders in Healthcare Under 40" by Becker's Health Review. She was awarded the 25 Rising Stars in Medicine by Medscape in 2020 and the 2018 Female Innovator of the Year by Women in Business Stevie Awards.

Dr Rehani was the invited member of the Quantitative Biosciences Institute (QBI) Women Initiative at UCSF in association with United Nations (UN) women and a Founding member of CUGH Radiology.

Her work in health equity is inspired by her grandfather who lived in a small village in India with limited access.
