

# 21st International Conference on Diseases of Fish and Shellfish

11 - 14 September 2023  
Aberdeen, UK

European Association  
of  
Fish Pathologists

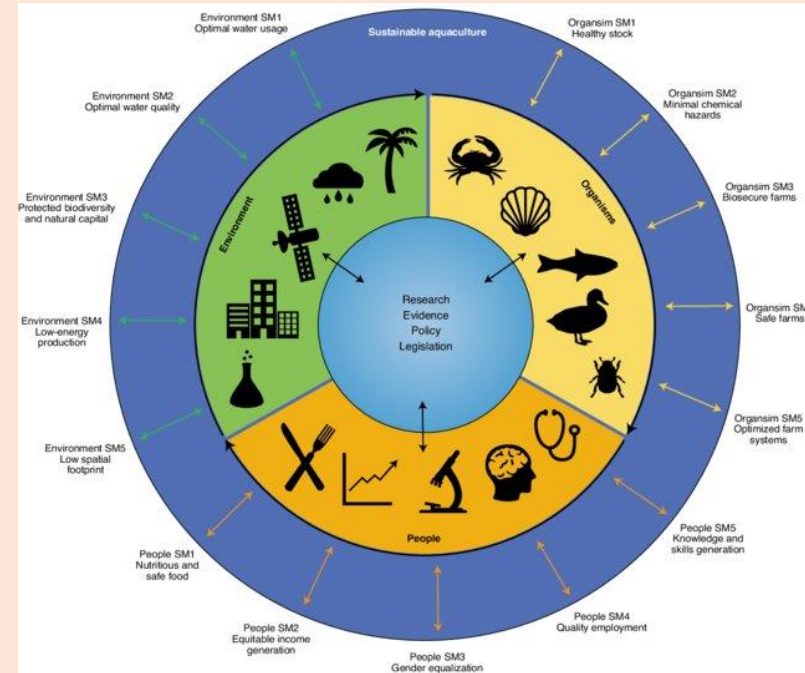

## Open Workshop *One Health in fish and shellfish*

In this EAFP workshop, a **One Health approach** (Figure) regarding the interactions of cultured and ornamental fish, shellfish, their environment, pathogens, and human health is in focus, including a helicopter view, contact and food zoonoses by bacteria and parasites and AMR issues.

We cordially invite you to join this workshop with a short presentation. There is some space to present, the organizers choose from the submissions. A joint article from this workshop will be published on the EAFP Bulletin with all presenters.

**Workshop organizers:** Olga Haenen\* (WBVR, NL), Sandrin Baron (ANSES, F), Agnès Travers (IFREMER, F), Matt Longshaw (Calysta, UK), *et al.*
