GENERAL INFORMATION

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Moscow, Dubai, Kuala Lumpur and Bogota.

ABOUT THE CONFERENCE

The 17th European Conference on the Mathematics of Oil Recovery - ECMOR XVII - will be held from 14 to 17 September 2020 in Edinburgh, United Kingdom.

Every two years, the ECMOR conference gathers applied mathematicians and geoscience engineers from both academia and industry to focus on recent advances in geological and reservoir modelling.

The ECMOR conferences started in Cambridge over 30 years ago and through a sequence of meetings in major European centres, continue a tradition of combining high-quality mathematical science with engineering applications. Researchers and engineers from industry, government and academia meet in an informal atmosphere to focus on key technical and mathematical challenges facing the oil industry.
