#NSG2019

IWAGPR 2019 is the 10th edition of the biennial series of the International Workshop on Advanced Ground Penetrating Radar. Its aim is to bring together scientists, engineers, industrial delegates and end-users working in all GPR areas, ranging from fundamental electromagnetics to the numerous fields of applications.

The workshop will provide a supportive framework for:

- Providing updates on ongoing research activities and results;
- Fruitful discussions and development of new ideas;
- Community-building through the identification of skill sets and collaboration opportunities;
- The exposure of early-career investigators to the GPR research community;
- A diverse exhibition where companies and associations will have the opportunity to present and showcase instrumentation, software, services and activities.

**The deadline for submissions is
23 June 2019, 23:59 CEST.**

We look forward to welcoming you to the latest addition to the Near Surface Geoscience Conference and Exhibition!

Scientific Committee

Antonis Giannopoulos	School of Engineering, University of Edinburgh
Xavier Derobert	Institut Français des Sciences et Technologies des Transports, de l'Aménagement et des Réseaux
Sébastien Lambot	Earth and life Science Institute, Environmental Sciences, Université Catholique de Louvain
Mercedes Solla	Centro Universitario de la Defensa, Escuela Naval Marín, Universidad de Vigo
Craig Warren	Department of Mechanical & Construction Engineering, Northumbria University
Francesco Soldovieri	Istituto per il rilevamento elettromagnetico dell'ambiente Consiglio Nazionale delle Ricerche (CNR)
Evert Slob	Geoscience & Engineering, Technische Universiteit Delft
