OVERVIEW

The geology of South East Asia is highly complex due to combinations of regional tectonics, large structuring events and diverse depositional systems. After over 100 years of exploration and exploitation in the region, hydrocarbons are becoming more difficult to find and exploit, and many frontier areas are yet to be explored. New advances in technology and methodology offer improved subsurface characterization, leading to greater prospectivity beyond the wellbore. Such is the demand for better and more accurate understanding of basin characteristics and reservoir behavior that pre-drilled reservoir and hydrocarbon prediction techniques are more important today than ever. EAGE Asia Pacific Virtual Geoscience Week aims to gather Petroleum Geoscience experts from across Asia Pacific to share and discuss their ideas and experiences of the latest methods and technologies, thereby promoting scientific advancement in this exciting field.

FACTS & DATES

Event Date	19 - 23 April 2021
Location	Online
Expected Participants	60 - 70 delegates
Types of Events	Online Workshop
Abstract Submission Deadline	29 January 2021
Online Registration Deadline	19 April 2021

OBJECTIVES

- Gather Geoscience experts from around Asia Pacific, share in their observations and investigate new and creative ideas on sedimentary basins and reservoir models.

- Evaluate new methods and technological advancements in data science, seismic reservoir characterization, prospect evaluation, reservoir modelling, fault extraction, etc.
- Provide a forum for the entire Geoscience community to discuss ways to resolve problems encountered in the exploration and exploitation of hydrocarbons in the region
- Allow experts and workers to widen their networks and areas of knowledge, thereby opening up new and exciting opportunities.

TOPICS

Calling for abstracts on the following topics:

- Basin Prospectivity Analysis and New Play Concept in South East Asia
- Stratigraphic and Sedimentological studies needed to Mature Asset (Exploration to Production)
- New and Proven Technology Applications in Subsurface Characterization
- Reservoir Contaminants – how to evaluate, monitor and handle CO₂, H₂S and others
- Hydrocarbon Evaluation in Complex Structures
- Small and Marginal Field Opportunities
- Fractured Basement

Call for Abstracts Deadline: 29 January 2021

SPONSORSHIP

Why Become a Sponsor?

This virtual event is a great opportunity to obtain the latest information on developments in the industry and expand your network and exchange ideas, meanwhile sponsorship enhances your visibility and corporate image before an international audience. Companies are invited to participate in the sponsorship of the EAGE Asia Pacific Virtual Geoscience Week and achieve high visibility in a qualitative and uncluttered environment.

The programme offers a diverse investment that's sure to help you reach your target audience.

Sponsoring at the workshop will enable you to:

- Increase your visibility before an international audience
- Enhance your corporate image
- Reach an influential, exclusive audience
- Break through the media clutter
- Associate your company with EAGE – the world's truly multi-disciplinary geoscience and engineering society
