

1ST PAPUA NEW GUINEA
PETROLEUM GEOSCIENCE
CONFERENCE AND EXHIBITION

PNG'S OIL AND GAS INDUSTRY MATURING THROUGH
EXPLORATION, DEVELOPMENT AND PRODUCTION

First Announcement

25-27 FEBRUARY 2020 • PORT MORESBY, PAPUA NEW GUINEA

ENDORSED BY

DEPARTMENT OF PETROLEUM

SUPPORTED BY

ABOUT THE CONFERENCE

IT HAS BEEN NEARLY TWO DECADES SINCE THE LAST PETROLEUM CONVENTIONS WERE HELD IN PORT MORESBY. THESE CONVENTIONS WERE ORGANIZED BY THE PNG CHAMBER OF MINES AND PETROLEUM, WHO WILL BE INVOLVED IN THIS NEWLY DEVELOPED AAPG/EAGE CONFERENCE. PETROLEUM ACTIVITY OF THE REGION HAS FLOURISHED OVER THE PAST TWO DECADES AS SEVERAL MORE FIELDS HAVE BEEN DISCOVERED AND LARGE GAS DEVELOPMENTS HAVE BEEN PUT INTO PRODUCTION. THIS SCIENCE AND FERTILE KNOWLEDGE WILL BE PRESENTED TO ATTENDEES.

The conference will review the petroleum geology of Papua New Guinea in its tectonic setting as host to petroliferous Phanerozoic basins on the northeast margin of the Australian continent. The conference will discuss established petroleum systems and plays as well as emerging and potential new plays that will contribute to future development and production.

The Conference will be focused on the exploration, appraisal, and development of the petroleum accumulations of Papua New Guinea. Papers on the country's oil and gas fields and their reservoirs and production where it pertains to the subsurface science of the accumulation of petroleum will also be included. With specific interests to petroleum geoscientists, specialists in many aspects of geology and other disciplines are encouraged to attend.

The amazing structural geology of Papua New Guinea, arising from its location at a major plate margin, will attract many geoscientists from around the world. In addition to examining the geology, the conference will also provide excellent information on the development, commercialization and exploration potential of new frontiers, such as the deep-water areas of the Gulf of Papua into the Coral Sea.

TOPICS:

- PNG Geology and Petroleum Systems
- PNG Structural Geology and Tectonics
- Papuan Basin Exploration
- Clastic Reservoirs, Sedimentology, and Evaluation
- Stratigraphy of Papua New Guinea
- Carbonate Reservoirs, Sedimentology, and their Evaluation
- Producing Oil Fields
- Producing Gas Fields
- Innovation and Application of New Technologies
- Exploration in Other Basins
- Petroleum Resources and Endowment
- New Field Developments

SPONSORSHIP AND EXHIBITION

Enhance your visibility and corporate image by participating as a conference sponsor and presenting your technical expertise to a focused and exclusive regional audience. The conference offers a variety of sponsorship categories and company display opportunities. Companies interested in sponsoring are invited to contact EAGE via asiapacific@eage.org.

IMPORTANT DATE

ABSTRACT SUBMISSION DEADLINE - 15 AUGUST 2019

Submit abstracts to Adrienne Pereira via apereira@aapg.org.

TECHNICAL COMMITTEE

| | |
|-----------------------------|---|
| Michael McWalter (convenor) | Oil Search |
| Wapu Sonk | Kumul Petroleum |
| Eddie Guru | Kumul Petroleum |
| Susan Nasinom | Kumul Petroleum |
| Lohial Nuau | Department of Petroleum & Energy |
| Greg Balavue | Department of Petroleum & Energy |
| Pilu Kouvali | Department of Petroleum & Energy |
| Leah Warupi-Morlin | PNG Chamber of Mines and Petroleum/Oil Search |
| Gerea Aopi | Oil Search |
| Shane Scofield | Oil Search |
| David Holland | Oil Search |
| Nigel Wilson | Oil Search |
| Sam Algar | Oil Search |
| Julian Fowles | Independent Consultant |
| John Chambers | Santos |
| Reinaldo Ollarves | Santos |
| Ian Cross | SEAPEX |
| Larissa Solomon-Nombe | ExxonMobil |
| Sarah E. Trend | ExxonMobil Exploration Company |
| Stanley Pono | Consultant Geophysicist |
| Jean-Marc Noiray | Total E&P |
| William Gordon-Canning | Total E&P |
| Aurore Pichon | Total E&P |
| Huw Evans | Twinza Oil |
| Paul Larsen | Searcher Seismic |
