

Poster Q&A Schedule

Number	Paper Title	Presenting Author Name/s	Exhibition date and time
Screen 1: Audiology and SLT: Now and In Future			
1.1	Using the EARS Inc. framework of S.T.O.R.E. to design audiology programs in the developing world	Peter Bartlett	29 Oct - Morning Tea
1.2	Competence and Practices of South African Audiologists in Cerumen Management	Mukovhe Phanguphangu	29 Oct - Morning Tea
1.3	Smartphone self-test audiometry for primary health care clinics in underserved settings	Josefin Sandström	29 Oct - Morning Tea
1.4	Overview of scientific production in teleaudiology: a bibliometric review	Hannalice Gottschalck Cavalcanti	29 Oct - Lunch Time
1.5	Evaluation of mobile Technology to Screen hearing in preschoolers	Hannalice Gottschalck Cavalcanti	29 Oct - Lunch Time
1.6	"Are we set-up to become these apathetic robots?" Speech therapists' and audiologists' experiences regarding patient death and dying.	Nabeelah Nagdee	29 Oct - Lunch Time
1.7	Utilizing social media for hearing health promotion: A pilot for young adults in Cape Town	Vera-Genevey Hlayisi	29 Oct - Afternoon Tea
1.8	Pilot hearing screening program among school-age children in Tajikistan – a telemedicine model	Piotr H. Skarzynski	29 Oct - Afternoon Tea
1.9	Clinically implementing online hearing support within Hearing Organization Södra Älvsborg, Region Västra Götaland	Milijana Malmberg	29 Oct - Afternoon Tea
1.10	Efficacy of the Afinando o Cerebro auditory training software in children with Auditory Processing Disorder	Leticia Borges	30 Oct - Morning Tea
1.11	Revisiting the cross-check principle: Uncovering associations between auditory physiologic measures to inform research and clinical practice	Jeffrey Wise	30 Oct - Morning Tea
1.12	Why fix it if it's not broken! The Role of Audiologists in families of hearing children born to Deaf parents	Nomfundo Moroe	30 Oct - Morning Tea
1.13	Cochlear Implant Audiologists' perceptions of social media based support groups in South Africa	Yvonne Penfold	30 Oct - Lunch Time
1.14	Reaching a consensus on the terminology for emerging hearing technologies: a Delphi review	Melanie Ferguson	30 Oct - Lunch Time
1.15	Investigating Knowledge, Attitude and Practice of Telerehabilitation in a resource constrained country	Mershen Pillay	30 Oct - Lunch Time
1.16	The Analysis and Classification of a South African Specialised Nutritious Food Modified for Patients with Dysphagia	Mershen Pillay	31 Oct - Morning Tea
1.17	Reconsidering the audiology educational model in Mexico: how specialty and experience influence attitudes and knowledge of hearing impairment	Ximena Fernandez de Cordova	31 Oct - Morning Tea
Screen 2: Vestibular and Tinnitus			
2.1	Vestibular Evoked Myogenic Potential recorded from femoral quadriceps: tVEMP	Pedro de Lemos Menezes	29 Oct - Morning Tea
2.2	Effect of caffeine on vestibular evoked myogenic potential: a systematic review and meta-analysis	Pedro de Lemos Menezes	29 Oct - Morning Tea
2.3	Impact of tinnitus on handicap perception within adults with vertigo	Hannalice Gottschalck Cavalcanti	29 Oct - Morning Tea
2.4	Tinnitus effect on quality of life	Teresa Momensohn - Santos	29 Oct - Lunch Time
2.5	Effect of Tinnitus Habituation Therapy on auditory abilities	Najlla Burle	29 Oct - Lunch Time
2.6	Questionnaires to measure the impact of tinnitus	Hsiao-chuan Chen	29 Oct - Lunch Time
2.7	Vestibular assessment and management in adults: South African audiologists' expressed level of confidence and knowledge explored	Ben Sebothoma	29 Oct - Afternoon Tea
2.8	The diagnostic and rehabilitative predictive value of the Suppression Head Impulse Paradigm (SHIMP) test in the diagnosis and management of a complex bilateral vestibular hypofunction: Single case study	Sandra Cummings	29 Oct - Afternoon Tea
2.9	The Prevalence of Hearing Loss and Tinnitus in Athletes with Learning Disabilities following Hearing Screening at the Special Olympics Games in Sheffield UK 2017	Wendy Stevens	29 Oct - Afternoon Tea
2.10	Relationship between Geriatric Depression Scale, Dynamic and Static Gait Test and the Specific Balance Confidence for the Activity Scale in the elderly.	Teresa Momensohn - Santos	30 Oct - Morning Tea
2.11	Characterization of children and adolescents with unilateral hearing loss	Cilmara Levy	30 Oct - Morning Tea
2.12	Long-term spatial hearing improvement and suppressive effect on tinnitus after cochlear implantation in profoundly single-sided deaf patients	Griet Mertens	30 Oct - Morning Tea
Screen 3: Pathology			
3.1	Migraine increases the risk of sudden sensorineural hearing loss: A longitudinal follow-up study	Chang Ho Lee	29 Oct - Morning Tea

3.2	Effectiveness of stapes surgery in the Elderly – review of literature	Piotr H. Skarzynski	29 Oct - Morning Tea
3.3	Observation of maintain of stapedotomy effects after 5 and 10 years after the surgery	Piotr H. Skarzynski	29 Oct - Morning Tea
3.4	Prevalence of asymmetric hearing loss in drivers of the city of São Paulo	Teresa Momensohn - Santos	29 Oct - Lunch Time
3.5	The Long-term Effect of Unilateral and Bilateral Otitis Media History on the Central Auditory Nervous System	Milaine Dominici Sanfins	29 Oct - Lunch Time
3.6	The long-term effect of unilateral otitis media history on the central auditory nervous system	Milaine Dominici Sanfins	29 Oct - Lunch Time
3.7	Microscopic Morphologic Changes in Drug-Addicted Monkey Models	Jung Ju Han	29 Oct - Afternoon Tea
3.8	Deciding Enteral Feeding for Children with Cerebral Palsy in a Low Resourced Context	Mershen Pillay	29 Oct - Afternoon Tea
3.9	Loudness function for bone conducted sound in subjects with pure conductive hearing loss	Mona Eng	29 Oct - Afternoon Tea
3.10	Study of cochlear function in acquired infection by Toxoplasma gondii in BALB/c mice	Bianca Eugênio	30 Oct - Morning Tea
3.11	Study of the hearing function in acquired infection by Toxoplasma gondii in BALB/c mice	Bianca Eugênio	30 Oct - Morning Tea
3.12	Age Dependent Calcium Binding Protein Expression in the Spiral Ganglion and Hearing Performance in C57BL/6J and 129/SvJ mice	Natalie Fischer	30 Oct - Morning Tea
3.13	People with Aphasia: Hearing Ability versus Hearing Perception - A pilot study.	Nicole Pilley	30 Oct - Lunch Time
3.14	A Follow-Up Study of Patients with ANSD	Deniz Tuz	30 Oct - Lunch Time
3.15	Stickler Syndrome: Hearing Impairment and Connective Tissue Disorder	Margarida Serrano	30 Oct - Lunch Time
3.16	The nature of the relationship between Respiration and Deglutition based on Prandial Oxygen Saturation measurements in a Cohort of Young Adults	Vrinda Rathiram	31 Oct - Morning Tea
3.17	ABR I Wave Amplitude Changes According to the Duration of Noise Exposure in Dental Prosthetics Technology Programme Students with Normal Hearing	Ebru Zeren	31 Oct - Morning Tea
3.18	Cochlear Synaptopathy on Factory Workers with Normal Hearing	Ebru Zeren	31 Oct - Morning Tea
Screen 4: Implantables			
4.1	Clinical Implication of Umbilical Cord. Derived Mesenchymal Stem Cells in Cochlear Implantation	Sungwoo Han	29 Oct - Morning Tea
4.2	Long-Term Follow-up of Hearing Preservation in Electric-Acoustic Stimulation Patients.	Griet Mertens	29 Oct - Morning Tea
4.3	Practical Experience with MRI scanning of Cochlear Implants Users	Ilona Anderson	29 Oct - Morning Tea
4.4	Audiological evaluation of the novel bone conduction hearing device ADHEAR in experienced user of an existing transcutaneous bone anchored hearing device	Piotr H. Skarzynski	29 Oct - Lunch Time
4.5	Surgical technique and evaluation of complications after implantation Ponto system	Piotr H. Skarzynski	29 Oct - Lunch Time
4.6	The Vibrant Soundbridge with a couplers – surgical and audiological issues	Piotr H. Skarzynski	29 Oct - Lunch Time
4.7	Safety with Bone Conduction Implants and Middle Ear Implants	Marco Caversaccio	29 Oct - Afternoon Tea
4.8	"Modern" bone conduction systems - inspite of many unknow factortors a story of success"	Erich Bayer	29 Oct - Afternoon Tea
4.9	New designs for custom-made retainer-earmolds (for BTE-Cochlea Implants)	Erich Bayer	29 Oct - Afternoon Tea
4.10	Hearing preservation with standard length electrodes in paediatric cochlear implantation	Anzel Britz	30 Oct - Morning Tea
4.11	The Recording of Electrocochleography via the Advanced Bionics Cochlear Implant System	Anzel Britz	30 Oct - Morning Tea
4.12	Changes in AutoNRT during the first year of cochlear implant use in children	Andreas Björnsne	30 Oct - Morning Tea
4.13	Intraoperative Monitoring Using Cochlear Microphonics in Cochlear Implant Patients With Residual Hearing	Domenica Cuda	30 Oct - Lunch Time
Screen 5: NHI, Ototoxicity			
5.1	Output Levels of an MP3 Player depending on Effects of Earphone Type, Music Genre, and Listening Duration	Hyunwook Song and Jinsook Kim	29 Oct - Morning Tea
5.2	Early identification of noise-induced hearing loss: The effects of noise on hearing in sound engineers	Liepollo Ntlhakana	29 Oct - Morning Tea
5.3	Interactions of Kanamycin, Antiretrovirals, and Noise in the C57 Mouse	J. Riley Debacker	29 Oct - Morning Tea
5.4	Hearing Aid Outcomes in Patients with Cisplatin-Induced Ototoxicity: A Pilot Study	Mukovhe Phanguphangu	29 Oct - Lunch Time
5.5	Management of occupational noise induced hearing loss in the mining sector in South Africa: Where are the audiologists?	Nomfundo Moroe and Katijah Khoza-Shangase	29 Oct - Lunch Time
5.6	Sports and Recreational Audiology: Ear and Hearing Health	Dhanashree Pillay	29 Oct - Lunch Time
5.7	Comparison of actual and predictive changes in hearing after short-term noise exposure for developing public health policy making model in the framework of EVOTION	Kamil Zaborowski	29 Oct - Afternoon Tea
5.8	Comparison of Auditory Objective and Subjective Findings in Professional Musicians Who are Exposed to Noise "Cochlear Synaptopathy"	Ebru Zeren	29 Oct - Afternoon Tea

5.9	Speech perception outcomes of cochlear implant recipients with hearing loss secondary to ototoxic drug administration for Tuberculosis treatment	Vikki-Lynn Van Zyl and Gill Kerr	29 Oct - Afternoon Tea
5.10	Protective effects of sodium thiosulfate for cisplatin-associated ototoxicity in patients with head and neck cancer	Tomokazu Yoshizaki	30 Oct - Morning Tea
5.11	Cataloguing the auditory-vestibular effects of ototoxins: A tool to determine the state of the science	Kelly Watts	30 Oct - Morning Tea
Screen 6: Paediatric			
6.1	Is teaching how to use communication strategies to children with auditory processing disorder strategic? Preliminary data.	Sandra Fortin	29 Oct - Morning Tea
6.2	Otitis media in childhood: Is there any difference on central auditory nervous system between two different populations?	Leticia Borges	29 Oct - Morning Tea
6.3	The impact on Central Auditory Processing in children with a history of unilateral middle ear disease	Leticia Borges	29 Oct - Morning Tea
6.4	Preliminary findings of Otoacoustic Emissions screening in babies infected with congenital Cytomegalovirus in northern KwaZulu Natal.	Anita Edwards	29 Oct - Lunch Time
6.5	Paediatric Hearing Loss at Tygerberg Academic Hospital, Western Cape: A 10 Year Retrospective Review	Jenny Birkenstock	29 Oct - Lunch Time
6.6	Evaluation of Auditory Perception Abilities in Turkish Children with Normal Hearing	Zahra Polat	29 Oct - Lunch Time
6.7	Decreased activation in the auditory cortex in HIV infected children	Keri Woods	29 Oct - Afternoon Tea
6.8	Development of the first paediatric audiology service in Zambia	Bhavisha Parmar	29 Oct - Afternoon Tea
6.9	Spotlight on the Profile of Auditory Processing Disorders in children	Somia Tawfik Mohamed Ali	29 Oct - Afternoon Tea
6.10	The efficacy of an auditory temporal training program in children with written language disorder.	Eliane Schochat	30 Oct - Morning Tea
6.11	Binaural Interaction Component of Auditory Cortical Potential in children with a history of recurrent otitis	Pedro de Lemos Menezes	30 Oct - Morning Tea
6.12	Study of otoacoustic emissions in children with history of otitis media undergone to myringotomy	Milaine Dominici Sanfins	30 Oct - Morning Tea
6.13	Auditory profile of children with microcephaly and intrauterine infection presumed by Zika Virus: analysis of 217 cases attended at Brain Institute – Rio de Janeiro, Brazil.	Daniela Capra	30 Oct - Lunch Time
6.14	Prevalence of otitis media and risk-factors for sensorineural hearing loss among infants attending Child Welfare Clinics in the Solomon Islands.	Annette Kaspar	30 Oct - Lunch Time
6.15	The medial olivocochlear inhibitory effect in normal hearing children	Thalita Ubiali	30 Oct - Lunch Time
6.16	Analysis of Amount and Style of Verbal Interaction and Effects on Language Outcomes in Children with Hearing Impairment: A Systematic Review (2006-2016)	Lena Wong	31 Oct - Morning Tea
6.17	Caregiver Unpreparedness: Deaf-Blind Children	Tejal Manga	31 Oct - Morning Tea
6.18	A scoping review on the perceptions of mothers with preterm infants regarding early communication development	Samantha Gay, Elani Matthee, Julia Miller, Elanie van Schalkwyk	31 Oct - Morning Tea
6.19	Caregiver Co-use of Media with Children Receiving Speech-Language Therapy	Urisha Naidoo	31 Oct - Lunch
Screen 7: Diagnostic			
7.1	Auditory steady state responses (ASSR) to CE-Chirp octave-band stimuli in normal-hearing adults	Monika Kordus	29 Oct - Morning Tea
7.2	Clinical Validity and Efficiency of An Adaptive Mandarin Word Recognition Test Applied for Hearing Screening	Hsiuwen Chang	29 Oct - Morning Tea
7.3	Speech Masking by Maskers with Varying Degrees of Linguistic Information	Anoop Basavanahalli Jagadeesh	29 Oct - Morning Tea
7.4	Auditory Steady-State Evoked Potential with speech stimuli in patients with dyslexia: a meta-analysis	Pedro de Lemos Menezes	29 Oct - Lunch Time
7.5	Binaural Interaction Component of Auditory Middle Latency Response in the Elderly	Pedro de Lemos Menezes	29 Oct - Lunch Time
7.6	Study of absolute latencies obtained through Auditory Brainstem Response (ABR) in children with microcephaly and intrauterine infection presumed by Zika virus: A review of 178 cases.	Daniela Capra	29 Oct - Lunch Time
7.7	Auditory attention and suppression of transiently evoked otoacoustic emissions	Wiktor Jędrzejczak	29 Oct - Afternoon Tea
7.8	Characteristics of auditory brainstem evoked potentials in subjects with Down syndrome	Krzysztof Kochanek	29 Oct - Afternoon Tea
7.9	Characteristics of hearing in elderly women	Maria Boboshko	29 Oct - Afternoon Tea
7.10	Emotional, Age, and Vowel Effects on Cortical Auditory Evoked Potentials(CAEPs)	Eunsung Lee and Jinsook Kim	30 Oct - Morning Tea
7.11	The effects of noise on P300 responses in school-aged children	Thalita Ubiali	30 Oct - Morning Tea
7.12	Audiometric results after stapedotomy with KURZ Skarzynski prosthesis	Piotr H. Skarzynski	30 Oct - Morning Tea
7.13	Otoacoustic Emissions in Children and Adolescents with Secretory Otitis Media History.	MF Colella-Santos	30 Oct - Lunch Time

7.14	High frequency audiometry in children and adolescents with cystic fibrosis	Paula Maria Martins-Duarte	30 Oct - Lunch Time
7.15	"A loose screw, too good to be true": The role of the Speech-Language Therapist and Audiologist (SLTA) in the differential diagnosis in a patient with a complex cognitive-communicative disorder	Alicia Toumilovitch	30 Oct - Lunch Time
Screen 8: Intervention			
8.1	Mobile Based Assistive Listening System (MoBALS): results for individuals with sensorineural mild hearing loss	Deborah Ferrari	29 Oct - Morning Tea
8.2	The 'Being Heard' Project	Sara Coulson	29 Oct - Morning Tea
8.3	Experiences of an internet-based aural rehabilitation (IAR) program for hearing aid users: A qualitative study	Milijana Malmberg	29 Oct - Morning Tea
8.4	Hakeems and their role within the community in relation to Speech Pathology and Audiology	Najeebah Moola	29 Oct - Lunch Time
8.5	Translating HEARS into Practice: Feasibility and Preliminary Efficacy of a Community Health Worker-Delivered Hearing Care Intervention	Jonathan Suen	29 Oct - Lunch Time
8.6	Severe-to-profound hearing impairment: Gender differences and benefits of audiological rehabilitation	Satu Turunen-Taheri	29 Oct - Lunch Time
8.7	Beyond hearing aid fitting: Investigating the feasibility of tele-rehabilitation for adult hearing aid users in a South African public health context	Vera-Genevey Hlayisi and Nuha Khatib	29 Oct - Afternoon Tea
8.8	A South African Survey of Audiologists Preferences for Patient-Centeredness	Kirsten Eckmann	29 Oct - Afternoon Tea
8.9	The Employment of Individuals with Hearing Impairment in the Kwazulu-Natal Private Sector: Current Employers' Perceptions and Experiences	Nishita Doolabh	30 Oct - Morning Tea
8.10	Teamwork is dreamwork	Lisbeth Olsson and Jenny Widmark	30 Oct - Morning Tea
8.11	The State of Ear and Hearing Care; Situation Analysis of six sub-Saharan Africa Countries where the Starkey Hearing Foundation works	Luqman Lawal	30 Oct - Morning Tea
8.12	The importance of a multidisciplinary team in Hearing Rehabilitation Appointments at D. Estefânia Paediatric Hospital, Lisbon, Portugal. How do we work?	Luisa Varão	30 Oct - Lunch Time
8.13	Early Intervention in audiology – The Department of Basic Education fit	Luisa Petrocchi-bartal	30 Oct - Lunch Time
8.14	New technologies of rehabilitation after cochlear implantation	Vigen Bakhshinyan	30 Oct - Lunch Time
Screen 9: Hearing Screening			
9.1	Effectiveness of a clinic-based new-born hearing screening programme in rural South Africa: Parental perspectives	Khomotjo Kgare	29 Oct - Morning Tea
9.2	Self-Report Questionnaire as an Auditory Processing Screening Tool in Children with and without Scholar Difficulties	Maria Isabel Amaral	29 Oct - Morning Tea
9.3	Initial investigation of an online program of central auditory processing screening in schoolchildren	Maria Isabel Amaral	29 Oct - Morning Tea
9.4	Comparison of affordable instruments for hearing screening	Deborah Ferrari	29 Oct - Lunch Time
9.5	Prevalence of hearing impairment and occurrence of auditory risk factors in low and high risk maternities: results from the Universal Neonatal Hearing Screening.	Juliana Cavalcante	29 Oct - Lunch Time
9.6	School-age hearing screening in Pedrogão Grande, Portugal	Margarida Serrano	29 Oct - Lunch Time
9.7	Newborn hearing screening in Brazil: a case study of a 10 year follow up.	Hannalice Gottschalck Cavalcanti	29 Oct - Afternoon Tea
9.8	Successes (Outcomes) and challenges: Tackling school screening in rural South Africa	Khomotjo Kgare	29 Oct - Afternoon Tea
9.9	School hearing screening: early identification of a metabolic hearing loss case	Paula Maria Martins-Duarte	29 Oct - Afternoon Tea
9.10	Universal newborn hearing screening in South Africa: Confronting the context	Amisha Kanji	30 Oct - Morning Tea
9.11	Universal Newborn Hearing Screening (UNHS) Model in Selected Malaysian Hospitals	Sulaiman Hamzah	30 Oct - Morning Tea
9.12	Universal Newborn Hearing Screening in public health care in South Africa: Challenges to implementation	Katijah Khoza-Shangase	30 Oct - Morning Tea
9.13	Comparison of the frequency of positive hearing screening outcomes in school-age children from different countries in Asia	Piotr H. Skarzynski	30 Oct - Lunch Time
9.14	Prevalence of hearing disorders in Western Poland – analysis of 95.411 school-age children	Piotr H. Skarzynski	30 Oct - Lunch Time
9.15	Central auditory processing disorder (CAPD)- hearing screening programme in group of children in school-age	Piotr H. Skarzynski	30 Oct - Lunch Time

Screen 10: Hearing Aids

10.1	Development of the Tris Test - Quick Test Of Identification Of Noise	Andrea de Oliveira and Teresa Momensohn-Santos	29 Oct - Morning Tea
10.2	Applying the COM-B model to assess the usability of alternative listening devices to conventional hearing aids in adults with hearing loss.	Melanie Ferguson	29 Oct - Morning Tea
10.3	Investigation of amplification characteristics of consistent hearing aid users in Japan	Shogo Furuki	29 Oct - Morning Tea
10.4	Speech understanding and sound localization with a noninvasive bone conduction system in uni- and bilateral condition	Marco Caversaccio	29 Oct - Lunch Time
10.5	Microbiological flora of hearing aid earmoulds	Elena Saveleva	29 Oct - Lunch Time
10.6	Evaluation of Hearing Handicap Before and after the Hearing Device with Hearing Loss	Leyla Ture	29 Oct - Lunch Time
10.7	Assessing the Suitability of Over-the-counter Amplification Device User Manuals for Older Adults	Jonathan Suen	29 Oct - Afternoon Tea
10.8	Frequency response of the different hearing aids' types and its impact on the rehabilitation outcomes	Gaziz Tufatulin	29 Oct - Afternoon Tea
10.9	First Experiences with the New Adhear Noninvasive Boneconduction Device	Wolf-Dieter Baumgartner	29 Oct - Afternoon Tea
10.10	Binaural versus monaural speech-recognition-in noise performance in prelingually-deafened Mandarin-speaking children fitted with cochlear implant and hearing aid in contralateral ears, and in those fitted with bilateral hearing aids	Xinyue Qiu	30 Oct - Morning Tea
10.11	Auditory and language abilities in children with aided unilateral sensorineural hearing loss	Edilene Boechat	30 Oct - Morning Tea
10.12	Semantic Development in Elementary School-Age Children with Hearing Impairments who use Cochlear Implants and/or Hearing Aids Compared to Children with Typical Hearing	Deena Wechsler-Kashi	30 Oct - Lunch Time
10.13	Early Language Development in Children with ANSD and SNHL who are Fitted with Hearing Aids	Hsiuwen Chang	30 Oct - Lunch Time
10.14	Assessment of effectiveness of the hearing aids for patients with sudden hearing loss	Katarzyna Cywka and Piotr H. Skarzynski	31 Oct - Morning Tea
10.15	Assessment of auditory rehabilitation in children up to 2 years old after the usage of hearing aids	Piotr H. Skarzynski	31 Oct - Morning Tea
