

Abstracts

Do you have a project or piece of work that you would like to share with your peers?

Submitting an abstract at conference is an excellent way to communicate the outcomes of your research project with fellow practitioners, researchers and educationalists. Presenting will also support your personal development, showcase your skills and help grow your CV.

Oral Presentations

Submission Guidelines

All submitted abstracts are blind reviewed by a panel. The top scoring abstracts are put forward for an oral presentation to be presented at conference as part of the conference programme. To view when oral paper sessions are taking place during conference, please view the programme page.

What happens if the abstract is selected as an oral presentation?

If the abstract is selected as an oral presentation you will be contacted with a date and time of the presentation. Presentations are 15 minutes to include 5 minutes for questions. Only one of the named authors may present and they must register for full conference as a paying delegate. You will be asked for a copy of your presentation in advance of conference.

On the day of your presentation, please report to the speaker registration desk, located at the main registration area. You will be directed to the speaker preview room where you can view your presentation and make any amendments if required.
