

MINI COMPANY PROFILE RAN D S.p.A.

Located in the internationally well-known Mirandola Bio-medical district (Italy), RanD is a knowledge-based company, established in 1999 exploiting more than 30 years' experience in the bio-medical field.

RanD has 20 years' experience in the field of Surgical Oncology. It's the 1st Market Leader present in 46 Countries worldwide and with more than 30.000 patients treated with HIPEC.

RanD is specialized in the development of technologically innovative systems based on extracorporeal circulation technologies, marked, at the same time, by extremely simplified operative management.

During the years RanD has established a close collaboration with internationally renowned physicians, which provide an essential contribution to the development of systems that meet users' needs. To this purpose RanD is in active cooperation with the organization committees of congresses and International scientific events; it also performs a constant training activity addressed to physicians and technicians in the field.
