	CANCER						
173	Mammography screening - in search of good advice	Oral	Health promotion	Disease screening and prevention	Manja Dahl	Jensen	University of Copenhagen
89	Anticipating cancer within everyday life: How can primary care help people in extended surveillance for "spots" on the lungs?	Oral	Health promotion	Disease screening and prevention	Michal	Frumer	Research Unit for General Practicte, Aarhus and Aarhus University Hospital
95	healthcare-seeking behavior among individuals with lung cancer symptoms - a population-based study	Oral	Health services	Primary health care	Lisa Maria	Sætre	Research Unit of General Practice, Department of Public Health, University of Southern Denmark
23	Ovarian cancer patients in Denmark - Use of primary healthcare and investigations before diagnosis	Oral	Clinical practice	Cancer	Isabella Gringer	Rousing	Research Unit For General Practice, Aarhus
134	Patients' expectations of treatment of sequela after cancer in primary care: an interview study	Oral	Clinical practice	Cancer	Allan	Riis	The Research Unit for General Practice in Aalborg, Denmark Denmark
249	Talking together in rural palliative care: A qualitative study of interprofessional collaboration in Norway	Oral	Clinical practice	End-of-life care	May-Lill	Johansen	Uit The Arctic University Of Norway
	CARDIOVASCULAR						
6	Hypertension treatment in the oldest-old: Focus group interviews with Swedish GPs	Oral	Clinical practice	Cardiovascular and respiratory	Marjo	Berkhout	Närhälsan Norrmalm Vårdcentral
266	Hypertension management in primary health care – a survey in eight regions in Sweden	Oral	Clinical practice	Cardiovascular and respiratory	Mikko	Hellgren	Örebro Universitet
274	Diagnostic accuracy of heart auscultation for detecting valve disease. A systematic review.	Oral	Clinical practice	Cardiovascular and respiratory	Anne Herefoss	Davidsen	University Of Tromsø
264	Primary care prevention program for cardiovascular disease: kidney function and effect on mortality	Oral	Clinical practice	Cardiovascular and respiratory	Päivi	Korhonen	University of Turku
217	Cost-effectiveness of a rule-out algorithm of acute myocardial infarction in low-risk patients: Emergency primary care versus hospital setting	Oral	Health services	Out-of-hours emergency primary care	Tonje R.	Johannessen	University Of Oslo
240		Oral	Others	Epidemiology and public health	Marius	Flege	Amager og Hvidovre Hospital
30	RESPIRATORY Impact of one moderate COPD exacerbation in GOLD A patients – a cohort study	Oral	Clinical practice	Cardiovascular and respiratory	Lene Maria	Ørts	University Of Aarhus
215	Early inspiratory crackles and its relation with COPD and variables of severity.	Oral	Clinical practice	Cardiovascular and respiratory	Juan Carlos	Aviles-Solis	Primary Care Research Unit, Tromsø
90	Healthcare costs of patients with chronic obstructive pulmonary disease in	Oral	Health services	Task shift	Jesper	Lykkegaard	Research Unit Of General Practice, Department Of Public Health, University Of Southern Denmark
146	Antibiotic treatment of adult patients with respiratory tract infections in Norwegian general practice: A nationwide registry-based stud	Oral	Clinical practice	COVID-19 and other infections	Marius	Skow	Department Of General Practice, University Of Oslo
176	Stopping an antibiotic course for an uncomplicated respiratory infection when no longer is necessary is effective and safe. Results from a randomised clinical trial	Oral	Clinical practice	COVID-19 and other infections	Carl	Llor	University of Southern Denmark
13	Antibiotic treatment of community-acquired pneumonia: a questionnaire survey in Danish general practice	Oral	Clinical practice	COVID-19 and other infections	Malene	Plejdrup Hansen	Center For General Practice at Aalborg University
	GASTRO/URINARY						
24		Oral	Clinical practice	Gastrointestinal	Peter	Haastrup	Research Unit of General Practice, Department of Public Health, University of Southern Denmark
22	Perceived food intolerance after an outbreak of Campylobacter jejuni in Askoy, Norway: a longitudinal cohort study	Oral	Others	Epidemiology and public health	Sverre	Litleskare	Norce Norwegian Research Centre
98		Oral	Others	Epidemiology and public health	Marije	Boks	Umeå University, Fjällhälsan Härjedalen
269	Trial without catheter immediately or after some days when treating acute urinary retention in males: a systematic review	Oral	Clinical practice	Genitourinary, gynaecology and obstetrics	Odd Martin	Vallersnes	University Of Oslo
114	Development of quality indicators for the diagnosis and treatment of urinary tract infections in general practice: a RAND appropriateness method	Oral	Clinical practice	Others	Laura Trolle	Saust	Research Unit for General Practice, Aalborg University

	MUSCULOSCELETAL						
0.7		Ovel	Clinical practice	Musculoskeletal	Nicoloi	1	Contro For Conney Departure At Anthony University
97	Management of acute gout flares in primary care. A qualitative study.	Oral	Clinical practice	Musculoskeletal	Nicolai	Jensen	Center For General Practice At Aalborg University
103	Adolescent back pain in general practice – less favourable than expect: a cohort study with 1-year follow-up	Oral	Clinical practice	Musculoskeletal	Christian	Straszek	Center For General Practice At Aalborg University
135		Oral	Clinical practice	Musculoskeletal	Allan	Riis	The Research Unit for General Practice in Aalborg, Denmark Denmark
148	Conservative fracture treatment in primary care - a cost minimization analysis	Oral	Health services	Rural medicine	Stein	Vabo	National Centre for Emergency Primary Health Care, NORCE, Norway
229	Frequency of general practitioner consultations and pain as a reason for encounter in children with cerebral palsy; a Norwegian national registry linkage study	Oral	Health services	Primary health care	Selma Mujezinovic	Larsen	Oslo University Hospital
100	PREGNANCY1		eu			я .	
129	Maternal BMI in early pregnancy is associated with overweight and obesity in children up to 16 years of age	Oral	Clinical practice	Child and adolescent health	Lisa	Önnestam	Närhälsan Ågårdskogen Vårdcentral
34	Does exposure to gestational diabetes cause obesity in pre-pubertal children?	Oral	Others	Epidemiology and public health	Ingun	Toftemo	University Of Oslo
273	Insulin resistance before and after gestational diabetes - Findings from Northern Finland Birth cohort 1966	Oral	Clinical practice	Others	Anna-maaria	Auvinen	University Of Oulu
204	Guideline on screening for gestational diabetes-General practitioners' perspectives	Oral	Health promotion	Disease screening and prevention	Kathy Ainul	Møen	University Of Bergen
223	Gestational and postpartum anemia and iron deficiency; a multiethnic population-based study of healthy pregnant women in Oslo	Oral	Clinical practice	Genitourinary, gynaecology and obstetrics	Marthe-Lise	Næss-Andresen	Department of General Practice, Institute of Health and Society, University of Oslo
196	PREGNANCY2 Materialty care at the CR office, from the national perspective	Oral	Clinical practice	Conitourinany	Christino	Agdastain	Sideia Lorokontor
186	Maternity care at the GP office - from the patient perspective	Oral	Clinical practice	Genitourinary, gynaecology and obstetrics	Christine	Agdestein	Sjøsia Legekontor
164	Maternal Mental Dealth During COVID-19: studies from a General Practice Based Cohort	Oral	Clinical practice	COVID-19 and other infections	Gritt	Overbeck	University Of Copenhagen
79	Mental vulnerability before and depressive symptoms during pregnancy and postpartum: A prospective population-based cohort study from general practice.	Oral	Clinical practice	Genitourinary, gynaecology and obstetrics	Ruth Kirk	Ertmann	University Of Copenhagen
87	General Practitioner's perceived barriers in assessing vulnerability in pregnant women. A cross-sectional questionnaire study.	Oral	Clinical practice	Mental health	Louise	Brygger Venø	University Of Southern Denmark, Department Of Public Health, Research Unit Of General Practice
122	Pregnant undocumented women's use of two humanitarian clinics between 2009-2020 and their maternal outcomes in Norway: A cohort study.	Oral	Health inequalities	Hard-to-reach groups	Frode	Eick	University Of Oslo
77	What factors are most important for the development of the maternal- fetal relationship? A prospective study among pregnant women in Danish	Oral	Clinical practice	Genitourinary, gynaecology and obstetrics	Ruth Kirk	Ertmann	University Of Copenhagen
	general practice						
	ANTIBIOTICS						
12		Oral	Clinical practice	COVID-19 and other	Carl	Llor	University of Southern Denmark
	A population-based cohort study.			infections	_	_	
47	A comparison of eight different strategies for management of patients with an uncomplicated acute sore throat - identifying the best strategy to safely keep antibiotic prescribing at a minimum	Oral	Clinical practice	COVID-19 and other infections	Ronny	Gunnarsson	Gothenburg University
69	Promoting prudent antibiotic use in nursing homes – a Norwegian nation- wide antibiotic quality improvement program	Oral	Clinical practice	COVID-19 and other infections	Nicolay Jonassen	Harbin	Antibiotic Center for Primary Care, Department of General Practice, Institute of Health and Society, UiO, Norway
231	Effects of Penicillin V on the faecal microbiota in patients with pharyngotonsillitis – an observational study	Oral	Clinical practice	COVID-19 and other infections	Karin	Rystedt	Närhälsan Primary Care. Sahlgrenska Academy.
239	Profiles of GPs with High and Low Physician Empathy: Personal, Professional, and Antibiotic Prescribing Characteristics	Oral	Health services	Person-centred health care	Troels	Kristensen	Danish Centre for Health Economics (DaCHE) / University of Southern Denmark
123	Does work with self-selected topics in quality clusters lead to improvements? A time-staggered difference-in-difference analysis of antibiotic prescription patterns in Danish general practice.	Oral	Health services	Quality and safety	Maria	Bundgaard	University Of Sourthern Denmark
	COVID-19						
216	Patient experiences from the COVID-19 pandemic regarding health care seeking, self-care, concern for disease, and delayed diagnosis and treatment; a cross-sectional study in general practice	Oral	Health services	Primary health care	Trygve	Skonnord	University Of Oslo
155	Increased access to general practice in response to the COVID-19 outbreak	Oral	Health services	Out-of-hours emergency primary care	Knut-Arne	Wensaas	Research Unit For General Practice, Norce Norwegian Research Centre
40	Restructuring of a GP practice during the Covid-19 pandemic - a focus group study	Oral	Health services	Primary health care	Therese	Renaa	Uio
241		Oral	Clinical practice	COVID-19 and other infections	Ingmarie	Skoglund	Institute Of Medicine, University of Gothenburg and R&Education&D&Innovation, Gothenburg
178	The experiences of Norwegian general practitioners during the Covid-19 pandemic - a focus group study	Oral	Health services	Others	Therese	Renaa	Uio
1	Trends in remote health care consumption in Sweden. A comparison	Oral	Health services	Primary health care	Veronica	Milos Nymberg	Center For Primary Care Research Malmö And Lund University
