**Breaking Boundaries for a
Sustainable Future in Healthcare**

"I was thoroughly impressed with Innovation for Health. The event brought together some of the most innovative minds in the healthcare industry, and I was blown away by the insightful discussions and presentations that took place.."

Participant I4H2023

Welcome to Innovation for Health!

Leading conference for key players in Health & Life Sciences

Join us on 28 March 2024 in Rotterdam de Doelen ICC for the 11th edition of Innovation for Health, the leading conference for key players in Health & Life Sciences!

The theme for this next edition is **Breaking Boundaries for a Sustainable Future in Healthcare!**

By bridging traditional barriers and fostering collaboration across disciplines, we can pave the way for a more sustainable and impactful healthcare ecosystem. Via the unparalleled programme with top-notch speakers and energizing exhibition displaying high impact innovations, you get updated on the latest developments, make valuable connections, learn from best practices and successful innovators.

Who should attend:

Innovation for Health is a must-attend conference for innovators, entrepreneurs, scientists, policy makers, investors, thought leaders, experts and other key players from Health & Life Sciences who aims to contribute to a healthy future through innovations.

Why join Innovation for Health:

- » Be a part of the best attended and most impactful Life Sciences & Health conference in the Netherlands
- » Get inspired by and insight in new developments, innovations and trends
- » Expand your network, connect with new and existing contacts
- » Learn from best practices and share ideas and exchange views
- » Build a thriving Life Sciences & Health ecosystem on regional, national and international level

GLOBAL INVESTOR FORUM

Pitch – Connect – Invest!

I4H Global Investor Forum | 27-28 March 2024

Traditionally Innovation for Health is organized in conjunction with I4H Global Investor Forum, a two-day event that connects young companies with investors and partners in Life Sciences & Health. On 27 March, the start-up companies will take the stage and give a pitch to investors and other key partners in Life Sciences & Health.

On 28 March, during Innovation for Health, the best 9 start-ups will present themselves in the start-up pitch finales and the best pitch is awarded the AXON Innovation for Health Award 2024. Many investors have an investor table and are available for 1-on-1 meetings during this day.

International Mission of Termeer Fellows to the Netherlands

A dynamic delegation hailing from the innovation hubs of Boston, the West Coast and Barcelona will be joining Innovation for Health this year, together with the Termeer Fellows based in the Netherlands and Belgium, to foster collaboration between the life sciences ecosystems across different parts of globe.

The programme will include new additions such as presenting the Henri Termeer Transatlantic Connection Award, which is established by The Termeer Foundation, in partnership with Health~Holland, to honor and recognize two emerging biotech entrepreneurs: one in Massachusetts and one in the Netherlands.

Hyphen Projects – connecting science to business

Innovation for Health is organised by Hyphen Projects. We are specialized in initiating, developing and organizing conferences, career fairs, websites and other formats for the Life Sciences and related sectors. Our projects mostly originate from our own initiative but can also be in collaboration with other parties or at the request of clients. In our projects we always aim at bringing professionals and organisations within the Life Sciences field together, to connect science to business
