Shaping the future of healthcare

**Innovation
forHealth**

15 – 16 April 2021
Online Hybrid Conference

Innovation for Health

Leading conference for key players in Health & Life Sciences

Innovation for Health offers an energising programme filled with innovation, inspiration, interaction with high-level speakers from academia and industry. Our 2021 programme features over 40 inspiring keynote speakers and various in-depth sessions with a special focus on innovation in immunology. A topic that because of the current Covid-19 pandemic has never been more relevant.
