

Danish Medicinal Chemistry and Chemical Biology Symposium 2025

Preliminary program:

09:30-10:00 Registration and coffee

10:00-10:05 Welcome

10:05-10:45 **Louise Walport, Francis Crick Inst., UK**
Adventures in covalency using mRNA-display

10:45-11:05 PhD student/Postdoc 1 (*speaker slot still available – apply before Dec. 16*)

11:05-11:35 Break

11:35-11:55 PhD student/Postdoc 2 (*speaker slot still available – apply before Dec. 16*)

11:55-12:35 **Thomas Kruse, Novo Nordisk, Denmark**
Development of Amycretin: A GLP-1/amylin co-agonist for oral administration

12:35-13:35 Lunch

13:35-14:15 **Dorothea Fiedler, FMP Berlin, Germany**
Uncommon Phosphorylation Modes: Protein Pyrophosphorylation and Oligophosphorylation in Human Cells

14:15-14:35 PhD student/Postdoc 3 (*speaker slot still available – apply before Dec. 16*)

14:35-15:15 **Dario Neri, ETH, Zürich, Switzerland**
From encoded combinatorial libraries to targeted anti-cancer therapeutics

15:15-15:45 Break

15:45-16:25 **Karl Gademann, University of Zürich, Switzerland**
Performance Enhancement of Natural Product Driven by Chemical Synthesis

16:25-16:50 Flash poster session

16:50-17:30 **Erhad Ascic, Lundbeck, Denmark**
Advancements in NMDA Receptor-Targeted Antidepressants: From D-cycloserine Discovery to Preclinical Efficacy of Lu AF90103

17:30-19:00 Poster session and drinks

19:00--- Dinner at [Bistro Royale](#)
