Thank you for your order!

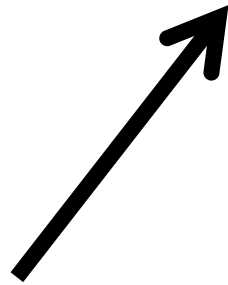

2

1. Impact on outcome of abdominal aortic aneurysm repair centralization: an early experience in public health system
2. Influence of on call vascular surgery team and off-hour effect in survival after ruptured Abdominal Aortic Aneurysm.
3. Climatic and moon cycle influence on the risk of abdominal aortic aneurysm rupture

2 Statistical support

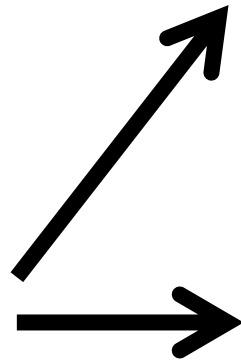

Minimum basic data set (MBDS) from public health system (Catalonia-Spain): AAA treatment between 2008-2017

1. Impact of centralization in AAA treatment in Catalonia (June 2015)

2 Statistical support

Minimum basic data set (MBDS) from public health system (Catalonia-Spain): AAA treatment between 2008-2017

1. Impact of centralization in AAA treatment in Catalonia (June 2015)

2. Climatic and moon cycle influence on the risk of abdominal aortic aneurysm rupture

2

Statistical support

Minimum basic data set (MBDS) from public health system (Catalonia-Spain):
AAA treatment between 2008-2017

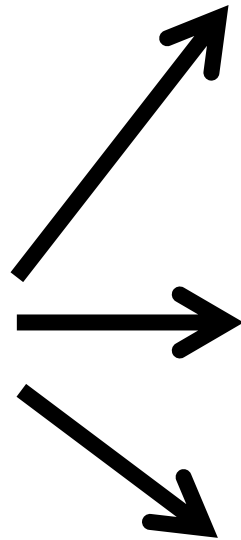

MeteoCat: Daily meteorological data from 69 different stations in Catalonia: mean, maximum and minimum atmospheric pressure (hPa) and air temperature (°C), as well as, solar irradiation (mj/m²), humidity (%), precipitation (mm) and wind velocity (m/s).

Day 0
Day -1
Mean -3 days
Mean -1 week
Mean -1 month
