

This Agora will feature a Panel on “Scientific societies and space agencies un the Space 4.0 era”, with contributions by the ESA, DLR and ASI, as well as the IEEE Geoscience and Remote Sensing Society and the Italian Society for Remote Sensing. The IEEE Geoscience and Remote Sensing Society (IEEE-GRSS) is one of 39 Societies of IEEE - 4000 Members in 94 Countries. IEEE-GRSS deals with the theory, concepts, and techniques of science and engineering as they apply to the remote sensing of the earth, oceans, atmosphere, and space, as well as the processing, interpretation and dissemination of this information.

You will hear from the President of the society and meet several senior members on how the organization works, the benefits of membership, the opportunity to publish in an impactful, premier journals to a world-wide audience, and participate in technical, professional and social activities.

invited speakers:

- Yves Louis Desnos (Head, Data Applications Division -Science, Applications and Climate Dept., ESA/ESRIN)
- Alberto Moreira (Director, Microwaves and Radar Institute, DLR)
- Jack Kaye (Associate Director, Earth Science Division, NASA)
- Anilkumar Dave (Head, Innovation and Transfer of Technologies Unit, ASI)
- Livio Rossi (President, Italian Remote Sensing Society)
- Paolo Gamba (President, IEEE Geoscience and Remote Sensing Society)
