Welcome Address

It is a great honour and pleasure to invite you all in Cascais, a beautiful beach town nearby Lisbon, to attend the 2018 Annual Meeting of ECHSA, the European Congenital Heart Surgeons Association!

ECHSA's meetings have recently become open also to non members, creating a platform for everyone involved in the care of patients with Congenital Heart lesions to participate and exchange their experiences - cardiologists, cardiac surgeons, anaesthetists, intensivists, pathologists, researchers, perfusionists, nurses and technicians, are all invited and most welcome.

In keeping up with ECHSA's long tradition, the Scientific Program will include abstract sessions, *best & worse case* presentations, video sessions, advanced research topics, and invited lectures by very distinguished international faculty. Industry sponsored workshops and an Exhibition of the latest medical technology relevant to our field, along with ample opportunities to exchange ideas, seek collaborations, and cultivate effective networking will contribute to an overall outstanding Congress experience.

Please submit your abstracts in due time and take the opportunity to contribute and share your work with all participants. Abstracts selected by our Program Committee will be presented orally, as video, or poster presentations. We anticipate a great forum for scientific discussion!

The venue for the meeting will be Cascais, on the Atlantic ocean coast, 15 miles West of Lisbon, a beautiful town of white-washed walls and pastel hues, still retaining a lot of its old fishing village charm. Sunny beaches, beautiful restaurants and fancy hotels, together with charming people, all contribute to create a welcoming atmosphere that will allow you to leisure and enjoy any free time in a truly unforgettable experience.

The romantic city of Sintra with its palaces and parks (World Heritage) and Lisbon, where old and new combine in a vibrating city, are only a few miles distant and easy to reach. Please consult with the Congress Organisers for the opportunities available for delegates and accompanying persons, with attractions and experiences not to be missed before or after the meeting!

We look very much forward to welcoming you in Cascais - Lisbon for a great Scientific Meeting and warm social interactions on 1st and 2nd of June. Not to be missed !

Jose Fragata, M.D., Ph.D.
President of ECHSA

About ECHSA

The aim of the European Congenital Heart Surgeons Association is to advance surgery for congenital heart defects, to improve the treatment of patients with congenital heart disease in Europe, and by all means, to promote the research and treatment related directly or indirectly to congenital heart diseases, irrespective of the patient's race, religion, origin, wealth or other discriminative factors. For realisation of this aim the Association carries on research of surgery for congenital heart diseases and organises courses, seminars and conferences for congenital heart disorders, traditionally open to the members of the Association and beginning with ECHSA'S 25th Anniversary in 2017, open to the entire congenital heart scientific community. To support the activities the Association can receive donations, grants and testaments, own needful solid and movable property for its function and carry on lotteries and collections after due permission.

Experienced Cardiac surgeons who approve the aim of the Association can be accepted as *full Members* of the Association. A person or legal community, who wants to support the aim and function of the Association can be admitted as a *supporting member*. The Board of the Association approves, after application, full and supporting members who are then confirmed by the General Assembly of ECHSA. A person, who has markedly advanced the field or supported the Association, as judged by the Board and confirmed by the Assembly, can be proclaimed Honorary Member.

Reasons to attend ECHSA 2018

- > Meet a great number of professionals active in major congenital heart related fields.
- > Exchange knowledge resulting from cutting-edge research.
- > Discuss with colleagues about the challenges the industry is facing today.
- > Strengthen collaboration with healthcare professionals and explore new opportunities.

DESTINATION LISBON PORTUGAL

Lisbon is the largest city in Portugal with a population of 552,700. However, Lisbon's urban area extends beyond the city's administrative limits with a population of around 3 million people, being the 11th-most populous urban area in the European Union.

Blessed with a warm Mediterranean climate and breathtaking views to the Atlantic Ocean, Lisbon is one of the oldest cities in our world; it is also Europe's second-oldest capital, once home to the world's greatest explorers like Vasco da Gama, Magellan and Prince Henry the Navigator, becoming the first true world city, the capital of an empire spreading over all continents. The city's architecture is uniquely interesting as it showcases Romanesque, Gothic, Manueline, Baroque, Modern and Postmodern styles throughout its areas. Cascais, home to the conference venue, is a small beach town next to the Estoril coast in the greater Lisbon area. It is the former residence of the royal family and a significant destination for tourists in Portugal.

Dominated by the bay and the imposing Cidadela fort, the historic centre is rich with architectural treasures of a religious, military and civil nature.
