

Pledging Guide

The Conference will include dedicated segments during which Member States, International Organizations and NGOs/civil society will be invited to make commitments – both financial and non-financial -- to end sexual and gender-based violence. We seek specific financial support to the gender-based violence programs within UN-coordinated humanitarian response plans, the ICRC operational response to sexual violence and other efforts to strengthen the humanitarian work in this field . In addition we invite participant to make specific policy and operational commitments. A detailed pledging guide will be available at this website by mid-April.
