Illumiti helps customers optimize their operations by implementing SAP® software solutions faster, at a lower cost, and with less risk.

Speakers

Tony Kasten | CFO, The Monarch Cement Company

Tony Kasten was promoted to CFO in August of 2019. In this position, he is responsible for the overall financial strategy and direction of The Monarch Cement Co. Within finance, he guides the controller, treasury, accounting, tax, and IT functions to pursue the company's growth strategies and meet shareholder expectations. He was the project lead on the company's SAP S/4HANA implementation and Kronos HRMS.

Tony joined Monarch in 2002 as a staff accountant and has served in various roles in the accounting department in his 19 years tenure. He is a Certified Public Account and a Certified Internal Auditor.

Tony received a B.B.A in Finance and an M.B.A in Accounting from Pittsburg State University.

Dan Pettingill | Senior Director of Delivery, Illumiti

Dan Pettingill is an Information Technology leader with over 23 years of experience delivering strategic IT solutions within the SAP ERP space. Dan has been with Illumiti for the past 8 years working with businesses such as the Monarch Cement Company and others implementing SAP ERP solutions. Dan's role as a Senior Director of Delivery is to ensure successful project delivery for Illumiti's customers.

Dan received his Bachelor's in Accounting and his Masters of Information Systems from Brigham Young University.

Monarch Cement: Operating at a Higher Standard with Ongoing Innovation and Scalability

When a company has been making cement for more than 100 years, you may think there's not much more to learn. Monarch Cement, however, breaks that mold by continually adapting to the times. Whether from an environmental standpoint – with their efforts to control and reduce emissions and support ecosystem and habitat restoration – or the way they address evolving customer and employee needs, Monarch is continuously adapting.

Here's how we do it.

1908

The year Monarch began making cement, ready to grow exponentially with SAP for the next century.

03 – The Evolution of SAP S/4HANA

How SAP S/4HANA has grown and empowered business to achieve more

Speaker

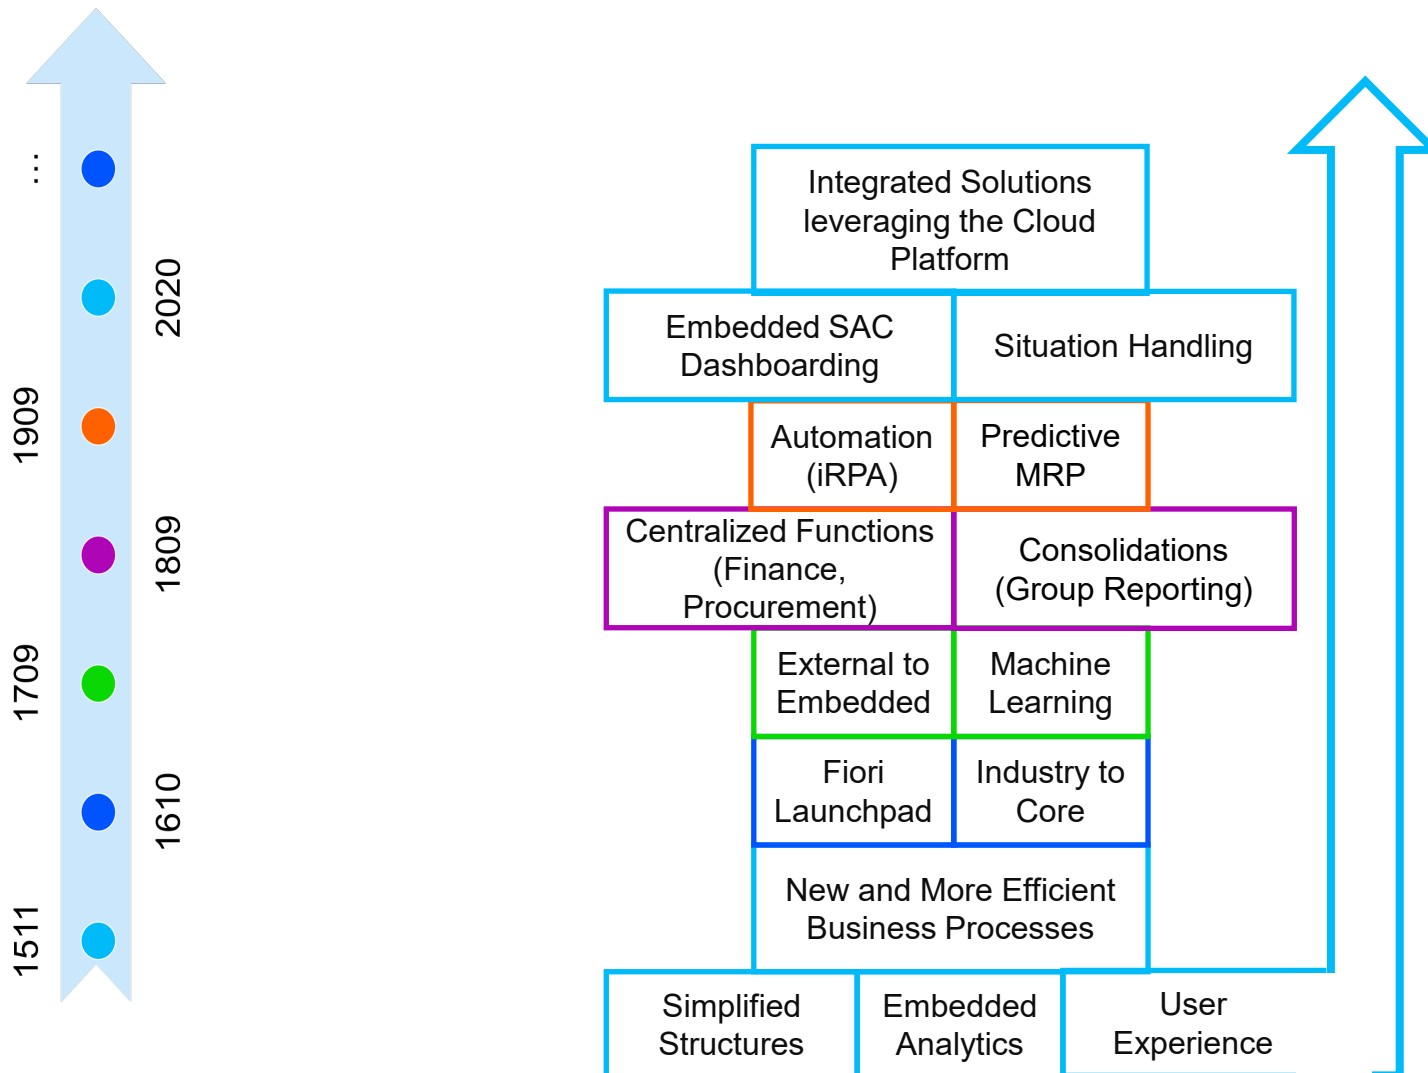

Lorraine Howell | Vice President of Innovation and Continuous Improvement

Lorraine has been in SAP since 1997, as a finance consultant, then as a business intelligence architect and now leads Innovation and Continuous Improvement at Illumiti. She is responsible for ensuring any new technologies and solutions released by SAP or certified partners are evaluated internally, making recommendations on how these technologies and solutions can be leveraged by Illumiti's customers, and then enabling the consultants to deliver the solutions. She also identifies innovation opportunities with customers and directs the development of solutions using these technologies.

The evolution of SAP S/4HANA Enterprise Management

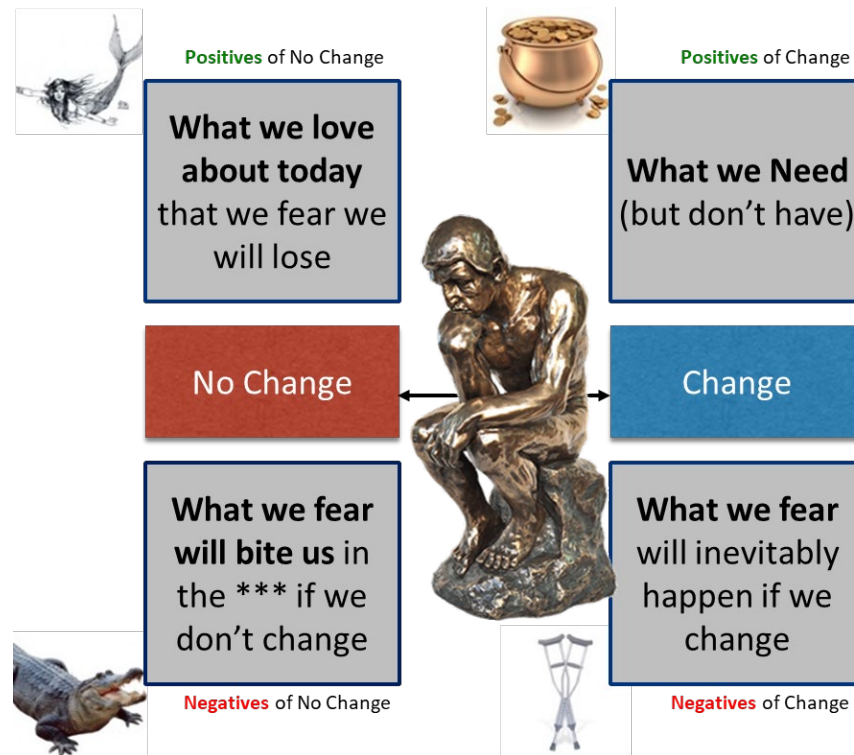

NEW and EVOLVING TECHNOLOGY
SAP S/4HANA – in-memory, high performance database

- The “Power of Next”

How Illumiti can help you prepare to move to SAP S/4HANA

1. Determine your drivers through a reasons for change discussion

• The “Power of Next”

How Illumiti can help you prepare to move to SAP S/4HANA

2. Following **Illumiti’s Value Assessment Approach**, identify the desired outcomes of the business that are fueled by these **drivers** to **act** on understanding

- how SAP S/4HANA can improve the business processes
- what the cost of the move would be
- what deployment option would be optimal
- whether cloud or on-prem makes the most sense

And determine the **requirements** needed to achieve success and understand the **technologies** that will help drive that
