

International SAP Conferences for Building Materials; Chemicals; Forest Products, Paper and Packaging; Mining and Metals
Four Events. All Under One Roof.

27 – 29 September 2022
Madrid, Spain

Pre-Conference Workshops

Tuesday 27 September, 2022

The preconference workshops are led by industry experts and will feature presentations, demos and real-life scenarios. Our workshop leaders have vast experience of working with SAP solutions across a variety of business situations. Each session is designed with cross-industry participation in mind allowing you to benefit not only from SAP's expertise but also to hear lessons learned and best practice from the wider mill products, mining and chemicals industries.

Please note that you cannot switch between parallel workshops. Each workshop will include refreshment breaks and lunch. Following the workshops we invite you to join our welcome reception taking place from 17:00 – 18:00 on the 21st floor terrace for drinks in the Madrid sunshine. For more detailed information on our pre-conference workshops please visit the event websites.

Full Day Workshop (09:00 – 17:00)

Workshop 1: Enabling the Transformation to a Sustainable Enterprise

Monica Gassmann, SAP | John Martin, SAP | Gloria Figarola, SAP | Muriel Rakotomalala, SAP

Morning Half Day Workshops (09:00 – 12:30)

Workshop 2: The Evolution to Intelligent Asset Management with SAP Asset Performance Management

Brian Williams, SAP | Dirk Kempf, SAP

Workshop 3: Next Generation Product Modeling with SAP S/4HANA Advanced Variant Configuration

Marin Ukalovic, SAP | Andreas Kölbl, SAP

Workshop 4: Synchronized Planning for Production: Leveraging Supply Network Planning in SAP IBP with Concurrent Production Planning in SAP S/4HANA Production Planning and Detailed Scheduling (PP/DS)

Berk Basar, SAP | Dr. Bülent Akin, SAP

Workshop 5: Your Digital Transformation Towards SAP S/4HANA - Lessons Learned from the Regional Implementation Group (RIG)

Tina Gailus, SAP | Juan Tena, SAP

Afternoon Half Day Workshops (13:30 – 17:00)

Workshop 6: Will Not Be Taking Place in 2022

Workshop 7: Simplify Your Quoting Process for Complex Product Configurations with SAP Configure, Price and Quote (CPQ)

Marin Ukalovic, SAP | Thomas Drescher, SAP | Liane Geber, SAP

Workshop 8: Integrated Supply Chain Planning for Configured Make-to-Order

Andreas Steinwender, SAP | Frank Büscher, SAP

Workshop 9: Transportation Deep Dive: SAP Transportation Management and Logistics Business Network

Dr. Lauren McCallum, SAP | Christina-Maria Reutter, SAP

Welcome Drinks Reception

Time: 17:00 – 18:00

Enjoy the sunshine, network with your colleagues and join us for drinks on the 21st floor terrace of the RIU Plaza

15:30	Closing Keynote Panel Discussion with Industry Councils John Shellenberger, Johns Manville Patrick Thompson, Albemarle				
16:00	Closing Remarks Matt Reymann, SAP Stefan Weisenberger, SAP				
16:10	Close of the 2022 Conference				

Microforums

Wednesday 28 September, 2022

During breaks in the main agenda, attendees will have the opportunity to join a variety of partner and SAP-led microforums. Hosted within the exhibition (at the microforum theatre), grab a coffee, and hear first-hand from industry experts. Presenters will be showcasing live demos, sharing their expertise, as well as answering your questions. If you are looking to find out more about how SAP Partners can help support your current and future projects, this is a great place to start.

Microforums are free to attend for all attendees across the International Conferences for Building Materials – Chemicals – Forest Products, Paper and Packaging, Mining and Metals.

10:40 – 11:10	Digital Material Certificates Stefan Rauch, concircle
13:45 – 14:15	Launch: EY Global Mining & Metals Top 10 Risks and Opportunities 2023 Paul Mitchell, EY
15:55 – 16:25	Roadmap to the Intelligent Enterprise: How SAP S/4HANA and Delaware's Intelligent FAST Print and Packaging Solution Helped Elopak to Optimize Plan-to-Produce Business Processes Michael Lauterbach, delaware Boris Zeller, delaware

Microforums

Thursday 29 September, 2022

10:25 – 10:55	Data to Value: Analytics in the Context of SAP S/4HANA Juergen Butsmann, SAP
13:20 – 13:50	SAP Labeling Made Easy Martin Beisswenger, Loftware

T.CON

Passionate about SAP – for over 20 years

We are SAP experts, process pros, system-savvy, and industry specialists. We link up processes, systems, and people – and rethink business processes. Our unique interplay of innovative technology and smart minds, combined with the way we merge knowledge from industry, processes and IT, delivers convincing results: coherent solution packages with added value for our customers. Our solutions help you to transform your visions into reality and work more profitably. This is how we guide businesses through the digital transformation and help you open competitive advantages and market benefits. Our team of 350 SAP experts across multiple sites performs complete implementations, carve-outs, and optimization projects all over the world.

Our pulp and paper industry expertise has developed over many years through numerous demanding projects for mill customers. The competence we developed is truly one of a kind. SAP SE agrees and has awarded us the certificate “SAP Recognized Expertise in the mill products industry in Germany”. With our combination of process and SAP know-how, we understand companies of the industry and offer target-oriented consulting services. Our wealth of experience is also reflected in per-configured industry solutions and templates. With our MES CAT we create transparency on the shop floor in real time and ensure the uncomplicated connection and networking of all machines and aggregates (Internet of Things/ IoT). Our SAP add-on solution SMART FOR MILL creates transparency at the push of a button, supports all key processes of mill companies and secures the investment. With our unrivalled TRIM SUITE, we ensure economical cutting planning and cost-saving cutting optimization.

As an owner-operated business and SAP Gold Partner, we have an emphasis on sustainable growth and pursuing long-term goals. We work together with our loyal customers, highly motivated employees, and faithful partners to create new value. We take great pleasure and pride in playing a part in the success stories of our customers and our colleagues.

EY

The energy industry is in transition, experiencing rapid, fundamental change due to a complex mix of forces, including decarbonization, digitization and geopolitical uncertainty. Mining and metals, oil and gas, and power and utilities companies must accelerate their own transition to unlock the opportunities this presents, while still addressing short-term operational and commercial pressures. EY's Global Energy & Resources team brings a breadth of experience and talent to help companies adapt for now and be ready for whatever comes next. By considering four key pillars of change — structure and culture, customers, technology, and skills and capabilities — we can help you adapt for today and reap the opportunities of tomorrow. And together we can build a better working world.

Bronze Sponsors

Implico

The Implico Group keeps the world moving by fueling it with data. Its solutions and services connect, elevate, and streamline the supply chains of the bulk industry. Going beyond digitalization, the international IT company enables its customers to embrace new forms of collaboration. To harness the power of the cloud. And to communicate barrier-free and purposeful within their networks. With more than 35 years of dedicated downstream experience under its belt, Implico takes a holistic view of its customers' businesses. The aim: to empower storage, distribution, and retail companies to excel on their digital transformation journeys. Implico is SAP's only software factory specializing in the secondary distribution and fuel retail sectors. Its portfolio includes the integrated end-to-end solutions SAP S/4HANA SDM (Secondary Distribution Management) and SAP S/4HANA RFNO (Retail Fuel Network Operations) as well as the Industry Cloud apps Connected Depot, Connected Truck, and Quantity Conversion Module.

For more information, please visit: implico.com

Bronze Sponsors

MySupplyChainGroup

MySupplyChainGroup LLC (MSCG) is a supply chain consulting boutique that offers innovative solutions in strategy, process reengineering, and solution implementation. Its specific expertise covers SAP® Integrated Business Planning applications for Supply Chain (SAP IBP), the SAP Advanced Planning and Optimization component, the SAP Extended Warehouse Management (SAP EWM) and SAP Transportation Management applications, and SAP S/4HANA®. MSCG has over 60 customers across 18 industries. Mill products (steel, pulp and paper, furniture, and packaging) and chemicals (polymers, specialty chemicals, oil and gas) – represent a significant vertical in its portfolio of services.

MSCG has worked with numerous mill and chemicals customers on their journeys to transform their supply chain, helping them to migrate to SAP S/4HANA and SAP IBP. Besides optimizing their supply chain and providing customers with a jump-start with SAP EWM, MSCG has delivered many innovative solutions for mill and chemicals customers including block planning, variant config, Char. Dependent planning, product wheel and campaign planning, contracts, formula pricing, swaps etc. MSCG delivers a templated deployment of SAP IBP prior to implementing SAP S/4HANA to ensure minimal throwaway. MSCG has also integrated SAP with a variety of MES vendors for shop floor and Trim Optimization.

MSCG's customers have quickly realized benefits in inventory levels, production utilization, and service levels.

TrendMiner

TrendMiner, a Software AG company, develops advanced self-service analytics solutions to optimize operational performance in the process manufacturing industry. Engineers in such fields as chemical, petrochemical, oil & gas, pharmaceutical, food & beverages, metals & mining, water & wastewater, and others are empowered to make data-driven decisions themselves without the help of a data scientist. The software allows engineers to analyze, monitor, and predict process behavior based on clues hidden in sensor-generated time-series data, as well as contextual data from third-party business systems. TrendMiner unlocks the full advantage of a company's IIoT infrastructure, regardless of vendor, and taps into available human intelligence.
